## RELEVANT PROJECTS

|  |
|--|
| <b>Stock DEPS</b>  |
| Intuitive and efficient stock management system, developed with MVC architecture. It allows organizing products, clients, suppliers, and controlling movements.  |
| <ul style="list-style-type: none"><li><b>Technologies:</b> HTML, CSS, PHP, JavaScript, MySQL, Composer.</li><li><b>Link:</b> <a href="https://github.com/Raullize/stockDeps">https://github.com/Raullize/stockDeps</a></li></ul> |

Armazém Girassol

E-commerce integrated with StockDEPS, featuring a shopping cart that directs the client to WhatsApp for order finalization. Developed to streamline product visualization and the ordering process.

- **Technologies:** React, Next.js, CSS.
- **Link:** <https://github.com/Raullize/armazem-girassol>

Octo.hub

Landing page for a strategic solutions company, combining web development, digital marketing, and consulting, created to enhance the company's online visibility.

- **Technologies:** HTML, Tailwind CSS, JavaScript.
- **Link:** <https://github.com/Raullize/octo-hub>

ContaComigo

Web platform for personal finance management with Open Finance integration, developed during the Scholarship at Compass UOL. It offers functionalities for viewing and managing accounts, transactions, goals, and reports, with a focus on expense categorization and an intuitive interface.

- **Technologies:** HTML, CSS, JavaScript, Node.js, Docker, PostgreSQL.
- **Link:** <https://github.com/Raullize/conta-comigo>

Meu Portfólio Pessoal

Repository containing the source code of my personal portfolio, focused on clean design, responsiveness, and performance, created to showcase skills, projects, and professional trajectory.

- **Technologies:** React, Next.js, Tailwind CSS.
- **Link:** <https://github.com/Raullize/my-personal-portfolio>
